

WATER EXTRACTION HYDRAULIC PRESS

YT-H5010

YT-H7510

Features and Benefits

- With Rexroth® and Parker® hydraulic technology
- German technology support with digital hydraulic pump mode
- PLC Controlled connect
- Expansion hydraulic tank for higher stability and longer running life
- Bigger basket dimension reduces inner pressure of hydraulic system and increased output pressure
- German rubber pad with specially designed joint ring part for smooth movement without leaking
- Conveyor belt to discharge
- Humid Residual Rate after press approximate 38%-45%
- Different discharge direction available base on plant layout

MODEL	YT-H5010	YT-H7510
Batch Size	50kg	75kg
Pressure	4.4Mpa	4.4Mpa
Total Power	18kw	21kw
Width	2120mm	2120mm
Depth	2510mm	2510mm
Height	3850mm	3850mm
Weight	14,000kg	16,000kg
