

# AUTOMATIC FLATWORK FOLDER

FF 3000

FF 3300

## Features and Benefits

- Standard 2 lateral folds and 3 cross folds in 1 lane or 2 lanes
- High accuracy speed sensors ensure folding accuracy at high speed
- Easy access belt tensioning devices for individual roll allow easy maintenance
- All motors inverter driven saving energy and easy adjustment for best folding quality
- Big size diagrammatic colorful touch screen computer controller for easy operation with auto-diagnosis function for easy trouble shooting
- Reversal belt design and large area grounded conductive metal to reduce static of linen for consistent fold quality
- Multiple compressed air reserve tanks to overcome incoming air pressure inconsistency
- Individual pressure adjustment for each fold enable fine setting for different linen
- Large cross fold section can handle longer linen with auto-reject for oversized linen prevent jamming while reversible roll at 1<sup>st</sup> cross fold can easy retrieve of jammed linen
- Pneumatic sliding blade for 3<sup>rd</sup> cross fold capable to handle thick linen at last fold
- Adjustable height of feeding side and custom made width available to match different kind of flatwork ironer in the market
- Automatic speed synchronization with flatwork ironer

Quality  
Reliability  
Performance

## TECHNICAL SPECIFICATIONS

MODEL	FF3000	FF3300
Maximum folding width	3000mm	3300mm
Maximum folding length	3000mm	3300mm
Lateral Fold	2	2
Cross Fold	3	3
Number of Folding Lane	1-2	1-2
Maximum Speed	50m/min	50m/min
<b>POWER</b>		
3 Motors	1.65kw	1.65kw
<b>DIMENSION</b>		
Width*1	3646mm	3646mm
Depth	2970-3100mm	2970-3100mm
Height	1780mm	1780mm
<b>WEIGHT</b>		
Net Weight	1730kg	2060kg
<b>CONNECTION</b>		
Compressed Air Inlet	Ø12mm	Ø12mm
Compressed Air Pressure Requirement	0.7MPa	0.7MPa
Compressed Air Consumption	10m <sup>3</sup> /h	12m <sup>3</sup> /h

For products improvement purpose, we reserve the rights to change the specification without notice
